## ELEVEN HURT.

Gas in Rheinstrom's Distillery, Cincinnati, Explodes.

One of the Unfortunates Blown Twenty Feet and Badly Burned.

The Firm was Boring for Water. When Natural Gas was Struck -- Instantly the Odorous Fluid Ignited by the Boiler Fire and Explosion Followed.

CINCINNATI, March 13. -- Natural gas was struck in boring for water at the Rheinstrom Brothers' distillery, at Front and Martin streets, Friday afternoon, causing a bad explosion in the boiler-room.

Eleven persons were badly burned, and the boiler-room was dismantled. The gas was still escaping when the fire department arrived, but it was thought that the flames could be kept in check and the damage held down to \$4,000 or \$5,000.

Rheinstrom Bros. contracted with the Bradford Milling Co. to sink an artesian well to secure a supply of pure water for the distillery.

The well was being bored in the boiler-room about four feet from one of the boilers. The drill was being operated by Erastus Weaver and James Fallon. At a depth of 300 feet natural gas was struck.

Being odorless the gas, the existence of which in this section was not dreamed of, was not discovered by the workmen until a great volume of it rushed out of the pipe at the surface.

Instantly the gas ignited from the fire box under the boiler and a terrible explosion followed.

The large number of employees of the distillery, horror-stricken, rushed from the building. Some of the cooler heads started in the direction of the boiler room to investigate and found three injured men prostrate, apparently more dead than alive.

The explosion was heard from considerable distance, and soon all the windows and doors of the neighborhood were filled with people looking excitedly about for the cause of the report and the trembling of their houses.

The gas was still escaping at a late hour Friday afternoon. Engineer Keifer had just stepped into the boiler room when the explosion occurred.

The fact of the discovery of natural gas alone created great excitement over the city, and will doubtless lead to prospecting for the article that only a few cities in the country enjoy.

### FIRST DEGREE MURDER.

Charles Morris, Colored, Found Guilty at Xenia, O., for a Crime Committed Ten Years Ago.

COLUMBUS, O., March 13. -- A press special from Xenia says that a verdict of murder in the first degree was returned Friday morning against Charles Morris, a colored man, charged with the murder of a farmer named Douthert and his wife at that place more than ten years ago. The house in which the couple lived was burned, and in the ruins their remains were found with unmistakable evidence of murder upon them. Morris, who had formerly worked for Douthert was suspected, arrested and tried but acquitted. Several years later Morris was sent to the state prison for another offense, and not long ago, when very sick, and thinking he was going to die, he confessed that he killed Farmer Douthert and his wife. He recovered, however, and his defense tried to prove that the alleged confession was made in delirium. A stock buyer, however, identified money found in Morris' possession after the murder, as having been paid by him to Douthert for stock.

Shipping Southern Corn to Europe. AUGUSTA, Ga., March 13. -- The low price of corn has created a demand for it in Europe and as a result shipments have been very heavy, especially from southern ports. The crop in the south was far in excess of its own needs. As an instance of the increase in this export trade, Port Royal may be cited. Last year this port cleared 116,000 bags of flour and only 200,000 bushels of corn. This year already 1,250,000 bushels of corn have been exported and a shipment of 800,000 bushels more is already contracted for. The south and west both contribute to this supply.

Perished in Her Burning House. CHARLESTON, W. Va., March 13. -- The house of John Johnson, of West Charleston, burned at 10 o'clock Friday morning. When the fire was discovered Eunice Johnson was seen lying on the floor of the hall, evidently living. A hook was thrown over her and she was dragged to the front door, when the rope burned and it was impossible to rescue her. The origin of the fire is unknown. Miss Johnson was the only person in the house at the time. She was subject to fits and had once before fallen in the fire.

Negotiating for Peace. ROME, March 13. -- The report that the Italians are negotiating with King Menelek to the end of concluding peace between Italy and Abyssinia is confirmed upon official authority. It is learned that Gens. Albertone and Nava and many other Italian officers, who were believed to have been killed in the battle at Adowa, on March 1, are not dead.

Appointed Special Architect. WASHINGTON, March 13. -- Secretary Carlisle Friday appointed Henry Ives Cobb, of Chicago, special architect to assist the supervising architect in preparing plans, designs and specifications for the new public building at Chicago. The salary is \$4,500 per annum.

Fire Aboard a Spanish Steamer. VALENCIA, March 13. -- Fire was discovered Friday in the hold of the Spanish steamer Martin Senn, which recently arrived from New Orleans and was discharging her cargo. All of the goods in the ship's forehold were burned.

### PANIC AT A FIRE.

Hundreds of Young Men and Women Rush From a Burning Building.

CHICAGO, March 11. -- A fire which was a source of danger to hundreds of men and women, boys and girls, started Tuesday afternoon in the stock room of the Lutz Wall Paper Co., on the second floor of the six-story stone front building which the company leases from the Martin Ryerson estate, located at 47-49 Randolph street. Only an alley separates the structure from the towering Masonic temple on State street. The total loss on building and contents will not exceed \$40,000, principally to the high grade stock of the Lutz company, and more from water than fire. On the fourth floor were 350 young men and girls, pupils of the Chicago Business college. Although they were told quietly to leave the building and there was no danger, none of them waited to get all their clothing or belongings and rushed pell mell down the narrow stairs to the street, where those who had their hats, coats and cloaks, dressed in the presence of the excited crowds. In like manner over 100 employees of Lord & Thomas, the advertising firm, and 125 girls and others employed on the fifth floor by the E. L. Mansure Co., fringe makers, made a hasty exit by stairs, fire-escapes and some by the single elevator, which ran in spite of a flooded basement. Several girls from the college and fringe factory fainted in the rush of getting to the street and policemen carried them outside.

The Report is Premature. ROME, March 12. -- Judging from various indications, the report recently circulated that Gen. Baldiszra's order of the evacuation is premature.
